MEMORANDUM FOR: DEPUTY FOR POLICY COORDINATION, SE

SUBJECT: Daily Progress Report for Wednesday, 21 May 1952

1. BGFIEND. L 2 reports that bad weather on the night of 20 May prevented the completion of the scheduled air resupply attempt to the Apple team. The attempt will be repeated as soon as weather permits.

2. BGCONVOY. No report.

3. OKEROIL. SE/PC Division is currently coordinating with the Department of State on the details of a new effort to achieve a single organization of the Rumanian refugees. The Division plan has been submitted to State for comment. On 21 May, representatives of the Division, IOD, and the NCFE met in Washington to decide on preliminary steps to be taken by the NCFE pending final coordination of the OPC-State Department plan. The NCFE representative has agreed, as a first step, to advise the leadership of the Association of Free Rumanians under General Radescu to curtail efforts to promote their League of similar Associations, in which Iron Guard elements appear to be usurping a significant role. No further action will be undertaken by the NCFE, until the reorganization plan is approved by the interested agencies.

4. JBEDICT. No report.
